

MAP LAYERS IN PARAGON

1. In Paragon go to “**Search**”→ “**Residential**” (or another property class) and enter criteria.

2. Click on “**Map Search**” or “**Search by Map**” on the top of the criteria.

3. On the map select the “**Map Layers**” icon

4. Click on the desired **Map Layer** to include in the search (i.e. Area 200).

5. Then click on the shaded areas on the map.

6. The selected **Map Layer** is now added to the **Search Criteria**.
